I am the consumer that your "inquisition" should be protecting (to improve competition, lower prices, etc.etc.). I, THE CONSUMER, AM SAYING :STOP ! I like Microsoft, I choose Microsoft, I believe the price is fine, so what now ? My government should better spend my tax money going after Bin Laden that Microsoft ! If I could, I would suggest Microsoft to relocate outside the USA : I will continue to purchase its products and another Country will benefit of its success : We, the American, do NOT deserve it !
